

FAST GENETICS HIRES JEFF KAYSER AS TECHNICAL PRODUCTION SPECIALIST

Jeff Kayser has been appointed as Technical Production Specialist. Jeff will be responsible for providing support to both our own internal production and third party multiplication, consultation on biosecurity protocols, providing support to our customers, implementing research trials and collecting data, and assisting in producer meetings and education.

Jeff is a swine industry professional with 40 years of leadership experience working with independent and integrated swine enterprises. He is also a business developer who is skilled at working with a variety of information systems, logistical coordination systems, facility construction and renovation, and models of commercial and gilt multiplication production enterprises.

Prior to joining us, Jeff spent two years working with Carthage Veterinary Services as a Senior Production Manager and 15 years working with Suidae Health and Production as Director of Management Services.

We are very excited to welcome Jeff into the Fast Genetics family and believe his extensive experience and involvement in the industry will most definitely be an asset for our team. Please join us in welcoming Jeff!
