

FOR IMMEDIATE RELEASE

## **FAST GENETICS HIRES MATT ROMOSER AS TECHNICAL SERVICE SPECIALIST**

**Ames, Iowa (December 15, 2017)** – Fast Genetics hires Matt Romoser as Technical Service Specialist in order to provide support for Fast Genetics' customers and third-party multipliers.

Recently, Mr. Romoser obtained his Master of Science degree in the area of Reproductive Physiology from Iowa State University. He also holds a Bachelor of Science degree in Animal Science from Iowa State University. Mr. Romoser has research and technical expertise in addition to experience in pork production.

Based out of Fast Genetics' US sales office in Ames, IA, Mr. Romoser will report directly to Dr. Steve Sornsen, Director of US Business Development. He will provide technical support, coordinate research projects, and act as a liason to Fast Genetics' US multipliers. The addition of Matt will add further depth to Fast Genetics' technical service and research teams.

Fast Genetics is excited to welcome Matt to the team and will continue to add highly respected and talented individuals.
