

Lab Technician

Fast Genetics is currently looking for a permanent part-time **Lab Technician** for their Saskatoon flow cytometric cell sorting lab. This position will report to the Lab Manager.

This position will include the following responsibilities and day-to-day functions but is not limited to:

- Working effectively to meet sperm sorting production requirements,
- Demonstrating a high level of professionalism and confidentiality with company related matters,
- Responsible for technical procedures such as data entry and record keeping,
- Assisting in organizing the lab and ensuring good housekeeping and biosecurity protocols are met by all staff and visitors,
- Working on a flow sorter and troubleshooting issues/concerns,
- Analyzing and interpreting basic sperm motion and morphology characteristics.

The successful candidate would ideally possess the following qualifications and experiences:

- Flexible to work shiftwork including night shifts and potential weekend shifts,
- Flexible to attend training at other labs in Saskatchewan, and ability to travel internationally for training if required,
- Ability to work independently and as a team player,
- Excellent interpersonal, time management, and organizational skills with great attention to detail,
- Excellent verbal and written communication skills,
- Ability to work in a fast-paced environment,
- Laboratory technology training or equivalent 2+ years of experience working in a laboratory,
- Knowledge of cell biology, flow cytometry and andrology would be considered an asset,
- Experience with Microsoft office,
- Shares in Fast Genetics core values.

The starting wage for this position is \$18.00/hour.

If you are interested in this opportunity, please apply by Oct 12, 2018 by sending your cover letter and resume to:
