

Swine Production Technician – Beatty, SK

Fast Genetics is currently seeking a full-time Swine Production Technician at our Beatty Barn. **Beatty Barn is located 15 minutes west of Melfort, SK.**

This position will include the following responsibilities and day-to-day functions but is not limited to:

- Performing specific department duties,
- Ensuring proper health, handling, and comfort of sows, gilts and piglets; ie: daily health checks;
- Carrying out daily care routines;
- Weigh, sort, handle and/or move pigs,
- Ensuring feed and water systems are working properly;
- Monitoring and maintaining proper ventilation and temperature using automated control system
- Performing minor maintenance tasks;
- Power washing empty pens and prepping rooms for animal entry;
- Keeping accurate records on all animals as requested; ie: pig identification;
- Working in a safe manner while performing all job duties;
- Ensure the barn's biosecurity protocol is followed by all staff and visitors,
- Performing other general farm duties as required.

The successful candidate would ideally possess the following qualifications and experiences:

- Self-motivated and reliable,
- Team player;
- Outstanding organization and communication skills and demonstrates attention to detail;
- Able to manage priorities and solve problems
- Previous livestock experience;
- Driver's license;
- College certificate or other specialized training in agriculture or livestock husbandry with 1-2 years of experience would be an asset, but not a requirement, as on the job training is provided.
- Shares in Fast Genetics' core values.

Wages range from \$13.00 -\$19.50/hr and is based on the successful candidate's experience and qualifications. Fast Genetics offers a comprehensive benefit plan including health, dental/ortho, vision, disability, group life insurance, and a registered pension plan.
